

# Safety Data Sheet

## ENDURA MAKEUP & HAIR (ALL SHADES)

### SECTION 1: PRODUCT AND COMPANY IDENTIFICATION

**Manufacturer** EBA Design Inc.  
760 W. 16<sup>th</sup> St., Unit D  
Costa Mesa, CA 92627

**Telephone** (800) 991-4322 **Fax** (714) 389-4312

**Product Names** Endura Makeup & Hair (All Shades)

**Recommended Use** Cosmetics/personal use

**Restrictions on Use** Not Applicable

**Emergency Contact / Number** PERS: US/Canada: 800-633-8253; International: 801-629-0667  
PERS Administrative Office: 1-800-728-2482

### SECTION 2: HAZARD IDENTIFICATION

**Signal Word** DANGER

#### Hazards

Flammable liquid Category 2, Highly flammable liquid and vapor  
Eye damage/irritation Category 2A, Causes serious eye irritation  
Specific target organ toxicity  
-respiratory Category 3, May cause respiratory irritation  
-central nervous system Category 3, May cause drowsiness or dizziness

#### Precautionary Statements

##### Prevention

Keep away from heat, sparks, open flames and hot surfaces. No smoking. Keep container tightly closed. Ground or bond container and receiving equipment. Use explosion-proof electrical, ventilating, light, equipment, etc. Use only non-sparking tools. Take precautionary measures against static discharge. Avoid breathing fumes or mist. Wash hands thoroughly after handling. Use only outdoors or in a well-ventilated area. Wear protective gloves and clothing, eye and face protection.

##### Response

In case of fire: Use water mist, dry chemical, foam or CO<sub>2</sub> to extinguish and if on skin or hair immediately take off all contaminated clothing. Rinse skin with water or shower.

If inhaled: Remove victim to fresh air and keep at rest in a position comfortable for breathing. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do so - continue rinsing. Call a POISON CENTER, doctor or physician if you feel unwell. If eye irritation persists get medical advice or attention. In case of fire: Use dry sand, dry chemical, or alcohol-resistant foam for extinction.

##### Storage and Disposal

Keep container tightly closed. Store locked up in a cool, well ventilated place. Dispose of contents and container to an approved waste disposal plant.

### SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

Component Name	CAS#	Component Percent or Range
Ethanol	64-17-5	60 - 90
Ethyl acetate	141-78-6	1 - 10
Non-hazardous ingredients	Mixture	1 - 30

**SECTION 4: FIRST AID MEASURES**

**Eye:** Immediately flush with water for at least 15 minutes, lifting upper and lower eyelids intermittently. Get medical help if irritation occurs and persists.

**Skin:** Flush contact area with water if irritation occurs. Get medical assistance or advice if irritation persists.

**Inhalation:** Not applicable under normal use. Get medical aid if symptoms occur and persist.

**Ingestion:** If swallowed drink water or milk to dilute. Do not induce vomiting without medical advice. Never give anything by mouth if victim is semi-conscious or unconscious. Seek medical attention immediately.

**Most Important Symptoms / Effects:** None known.

**Indication of Immediate Medical Attention and Special Treatment, if Necessary:** None known.

**SECTION 5: FIREFIGHTING MEASURES**

**Suitable and Unsuitable Extinguishing Media:** Water mist, dry chemical, foam, CO<sub>2</sub>; water stream may be ineffective but should be used to keep fire-exposed containers cool.

**Specific Hazards:** May release CO, CO<sub>2</sub> and possibly toxic fumes in a fire. Product is flammable with a low flash point and may be ignited by heat, sparks, flames or other sources of ignition. Vapors are heavier than air and may accumulate in low areas. Vapors may travel considerable distances to a source of ignition where they can ignite, flashback or explode. May create vapor/air explosion hazard indoors, outdoors or in sewers. If container is not properly cooled, it can explode in the heat of a fire.

**Specific Protective Equipment and Precautions for Fire-Fighters:** Use a water spray to cool fire-exposed containers and structures and to protect personnel. Firefighters should wear a self-contained breathing apparatus and full protective gear.

**SECTION 6: ACCIDENTAL RELEASE MEASURES**

**See Section 8 for personal protective gear.**

**Personal Precautions:** Isolate release area and keep unnecessary or untrained people away. Product is flammable; keep all sources of ignition and hot metal surfaces away from spill.

**Environmental Precautions:** Contain spill if it can be done with minimal risk and prevent from entering drains, sewers or waterways. Notify proper authorities.

**Methods for Cleaning Up:** Use foam on spills to minimize vapors. Using only non-sparking tools and explosion proof equipment, collect spill on absorbent material and put into approved container. Large spills: Evacuate area and shut off spill if safe to do so. Dike area to contain spill. Soak up residue with clay or other absorbent. Place in container for proper disposal. Flush area with water and dispose of this in the same manner. Small spills: Take up with absorbent; place in non-leaking containers.

**SECTION 7: HANDLING AND STORAGE**

**See Section 8 for personal protective gear.**

**Handling:** Store in a cool, dry, well-ventilated location. Ground equipment as required. Keep away from sparks and flame. Wear proper protective equipment. Do not ingest. Use good hygiene practices when handling product, including changing and laundering work clothes after use. Empty containers may contain residue or vapors. Do not cut, grind, drill, weld or reuse containers.

**Storage** Store product in closed containers in a well-ventilated area away from heat, sources of ignition and incompatibles. Do not store in unlabeled containers.

**SECTION 8: EXPOSURE CONTROL AND PERSONAL PROTECTION**

Component Name	OSHA	ACGIH
Ethanol	1,000 ppm	1,000 ppm
Ethyl acetate	400 ppm	400 ppm

**Engineering Controls:** Use appropriate ventilation to maintain good air quality below OSHA and ACGIH exposure limits.

**Eye and Face Protection:** Wear glasses to protect eyes if task or activity warrants.

**Skin Protection:** Not harmful to skin.

**Respiratory Protection:** Follow OSHA regulations (CFR 1910.134) and use MSHA/NIOSH-approved respirator or mask to prevent exposure in areas where vapor concentrations are unknown or exceed OSHA or ACGIH limits (above).

**SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES**

**Description:** Alcohol based airbrush makeup in a variety of colors

<b>Appearance/Physical State</b>	Colored liquid	<b>Flash Point (ASTM D56-05)</b>	51 °F
<b>Specific Gravity</b>	0.82 – 0.83	<b>Upper Flammability Limits</b>	Not Determined
<b>Evaporation Rate (butyl acetate = 1)</b>	Not Determined	<b>Lower Flammability Limits</b>	Not Determined
<b>pH</b>	7.5	<b>Auto-ignition Temperature</b>	Not Determined
<b>Solubility in Water</b>	Negligible	<b>Decomposition Temperature</b>	Not Determined
<b>Odor</b>	Fruit scent	<b>Vapor Pressure</b>	Not Determined
<b>Odor Threshold</b>	Not Determined	<b>Vapor Density (Air=1)</b>	>1
<b>Melting/Freezing Point</b>	Not Determined	<b>Partition Coefficient (n-octanol/water)</b>	Not Determined
<b>Boiling Range</b>	Not Determined	<b>Viscosity (mPa. s, 20 °C)</b>	Not Determined
<b>Initial Boiling Point</b>	190 °F	<b>Critical Temperature</b>	Not Determined

Note: Physical and chemical properties are provided for safety, health and environmental considerations and do not fully represent product specifications. Those should be requested separately.

**SECTION 10: STABILITY AND REACTIVITY**

**Reactivity:** Not reactive at normal storage and use conditions

**Chemical Stability:** Stable at normal storage and use conditions

**Incompatible Materials:** Strong oxidants, silver salts, acid chlorides, alkali metals, metal hydrides, hydrazine

**Possibility of Hazardous Reactions:** None known

**Conditions to Avoid:** Very high temperature

**Hazardous Decomposition Products:** Thermal decomposition products may include CO, CO<sub>2</sub>, fumes and smoke which may be toxic.

**SECTION 11: TOXICOLOGICAL INFORMATION**

Specific toxicity tests have not been conducted on this product. In accordance with OSHA's Hazard Communication Standard 1910.1200, this product is assumed to have the same health hazards as its significant components.

**Acute Toxicity Effects:** Likely routes of exposure are skin and eye contact during product use. The product components (ethanol, ethyl acetate and castor oil) have low oral and dermal toxicity. Ethanol is an eye irritant. Product is considered to be gluten-free, peanut-free, and vegan. Color additives approved by FDA for use in cosmetics.

**Chronic Toxicity Effects:** Repeated and prolonged exposure may exacerbate any acute effects.

**Carcinogenicity:** NTP, IARC and OSHA have not identified any carcinogenic ingredients above the statutory limit of 0.1%.

**SECTION 12: ECOLOGICAL INFORMATION**

Specific environmental tests have not been conducted on this product. It is not classified as an environmental hazard based on the properties of the components. Readily biodegrades and does not bio-accumulate.

**SECTION 13: DISPOSAL CONSIDERATIONS**

Not a hazardous waste. Dispose of in accordance with local, state/province, and federal environmental regulations.

**SECTION 14: TRANSPORT INFORMATION**

**DOT:** Consumer Commodity ORM-D (cf. 49 CFR 172.101)

**IATA/ICAO:** Class 9, ID8000

**IMO/IMDG:** UN1263, Class 3 Flammable Liquid, Packing Group II

**Packaging Authorizations:** This product is provided only in non-bulk containers.

**Special Provisions (172.102):** Emergency Response Guide #127

**SECTION 15: REGULATORY INFORMATION**

**TSCA Status:** All components are listed in the TSCA inventory

**SARA 311/312 Reporting Categories:** None

**SARA 313 Reportable Ingredients:** None

**SECTION 16: OTHER INFORMATION**

**Department Issuing SDS:** Health and Safety

**Disclaimer**

The information presented above is believed to be accurate and represents the best information currently available to us.
